TABLE III. TOTAL ENROLLMENT

This summary shows by race for 1959-1960: the enrollment by schools (codes a plus c plus d plus e) for all North Carolina administrative units; those enrolled in two or more schools within the same unit or system (pupils coded c), permitting the enrollment by units (codes a plus d plus e) to be obtained by subtraction; those enrolled in two or more units (pupils coded d); the net State enrollment (codes a plus e); those coming from other states (pupils coded e). The U. S. Office of Education desires only those pupils coded a—secured by subtraction.

This presentation illustrates the ambiguity of the term *enrollment*; there are four (4) sets of figures. Net enrollment reduced to average daily basis is called *average daily membership*; see Table I.

TABLE IV. WHITE ENROLLMENT (a+e) BY YEARS

This summary shows by grades the net enrollment (a+e) in all white schools over a period of twelve (12) years. By noting the figures just above the heavy horizontal lines, one may determine the rate of progress through the grades: 70,396 pupils in first grade in 1948-1949 as compared with 36,825 in twelfth grade eleven years later.

TABLE VII. MEMBERSHIP AND PROMOTIONS BY GRADES
SUMMARY

This tabulation shows by grades and race for 1959-1960: the membership on last day of school, the number of pupils promoted—permitting the number not promoted to be obtained by subtraction—and the percentage of membership which was promoted.

The losses of Table VI are eliminated in this percentage calculation. A tabulation giving percentages based upon enrollment (a + e) follows.

TABLE VIII. EXPERIENCE RATINGS OF TEACHERS—SUMMARY

This summary gives the experience ratings for 1959-1960 of those teachers paid from the State Nine Months' School Fund; vocational teachers and those paid from local funds are excluded. Since only 13 increments were allowed on Graduate certificates, 12 on Class A, 6 on Class B, etc., the experience shown is not the actual number of years taught but the number for which there was compensation.

Classified principals and supervisors are not included.

TABLE IX. INSTRUCTIONAL AND SUPERVISORY PERSONNEL

This table gives for each administrative unit of the State during 1959-1960 a distribution of instructional and supervisory personnel—employed from all sources of funds—by race and levels of instruction. Teachers, as distinguished from principals and supervisors, are also divided by sex. Where fractions appear, teachers are working in both elementary and secondary fields or teaching and supervising.

The summary shows for North Carolina the number of teachers in elementary schools (grades 1-8), the number in high schools (grades 9-12), the number of vocational teachers, of principals, of supervisors, of clerical assistants and of superintendents; then relates the number of teachers to average daily membership and average daily attendance, as given in Table I.

TABLE XI. NUMBER OF ELEMENTARY SCHOOLS
TAUGHT—BY SIZE

This table shows by race for each county and city system of the State during 1959-1960 the number of elementary schools taught—distributed by size (number of teachers and principals employed).

An 8th grade housed with the high school is not counted as elementary school, but two grades (7th and 8th) as part of junior high school are considered an elementary (grammar) school in this enumeration.

The summary gives the North Carolina total for each race with division between counties and cities. There also appears the number of union schools; those giving two levels of instruction in same building.

TABLE XIII. NUMBER OF SCHOOLS TAUGHT—BY GRADE LEVEL

This summary shows by race for 1959-1960 the number of schools which attempted various grade-levels of instruction. For elementary (grades 1-8) there are three types of schools: primary, grammar and other. Primary schools are defined as those which go no higher than grade 5, beginning with the first grade; grammar schools teach only the intermediate grades, as 4-6, 6-8 or 7-8; the other schools cover grades 1-6, 1-7 or 1-8.

For secondary schools the grouping is by years of instruction above eighth. One-year high schools teach only 9th grade, two-year high schools have grades 9-10, etc. A junior high school of grades 7-9 is considered here as a grammar school (grades 7-8) and a one-year high school.
